Castell De Falgons is an authentic Castle with construction dating back to the 8th century AD. It contains four towers facing the cardinal points, expanded during medieval ages of 13th and 14th centuries. Our famous Castle boasts a rich and legendary history inhabited by nobility including barons, knights, counts and marquis for more than a thousand years. In fact, a single elite family lived in the castle for over 800 years continuously!

Where your dream of being a royalty becomes a reality!
